

Programs and Schemes used in Bedford Road Lower School

Literacy

Bugclub

An online program that allows KS1 children to read (or have the computer read to them) exciting and interesting books and answer questions about it as they read.

Accelerated Reader

A program for KS2 children which allows them to take quizzes about books they have read at home or at school in order to get points which can earn them prizes.

Numeracy

Mathletics

An online program where children can learn, challenge and compete with themselves and others both in the school and around the world.

ICT

Espresso Coding

A fun, exciting and easy introduction into programming and coding for all ages.

Cross Curricular:

Discovery Espresso

This is an online collection of videos, activities and information covering a huge range of areas that is constantly being updated.

This is also available to be used from home through the Home Access area on the school's website.

Education City

A collection of fun games for all ages including literacy, numeracy and science.

5-a-Day

This contains a large selection of fun 5 minute fitness videos designed for children and 2 minute relaxation clips as well as some in a variety of languages.

This is also available to be used from home through the Home Access area on the school's website.
